NEW-YORK, FRIDAY, FEBRUARY 20, 1857.

Published Feb. 7, 1867:

THE NEW-YORK SPEAKER,
comprising a new selection of Pieces for practice in Reading, Recitation, Declamation and Dialogue. Compiled from the latest works of EMINENT ORATORS AND POETS.
With an extensive introductory Treatise on Elocution, Oratory and Gesture, and engraved illustrations in Attitude and Action, adapting it as a Text-book for scademies and seminaries.

By WARREN P. EDGARTON,
Professor of Oratory and Rhetoric in Hudson River Institute,
Claverack, New York,
And

Professor of Oratory and Restoric in Hudson River Institute,
Caverack, New York,
And
WHLIAM RUSSELL,
Author of "Pulpit Elecution," "American Resider," "American Elecutionist," Re.
592 pages, 12mo. Cloth. Price, 61 25.
The following are characteristics of this work:

1. The selection of pieces for practice has been made with express reference to the actual wants of the academic declamations, as experienced in the daily exercises of the class room. It excitages of education, and those merely juvenile exercises which belong properly to primary schools.

2. No pieces have been admitted but those which have been actually found interesting to the class of pupils for whose use the work is intended, and which have been found conductve to the formation of an earnest and animated style of address.

5. It presents a very large number of elegant and brilliant passages for recitations, not found in other collections, including many selections from the most recent productions of eminent orators and poets.

4. The Introductory part of the work is furnished by Prof. Russell, and treat of the subject of gesture in a clear and protectical manner, adapted to the personal training of young speakers, with a view to the formation of a correct, easy and graceful style of declamation.

THE NEW-YORK SPEAKER contains 255 selections for

style of declamation.

THE NEW-YORK SPEAKER contains 255 selections for declamation, and will be found, we trust, in the extent, variety, and freshness of its contents, a most attractive and useful book.

Copies sent by mail, postpaid, on receipt of the retail orice.

HARPER & BROTHERS, Nos. 327 to 335

THE CAPTURE OF WASHINGTON.

THE CAPTURE OF WASHINGTON.

History of the Invasion and Capture of Washington, and of the Events which preceded and followed it. By J. B. Williams, Brigade-Major and Inspector, Columbian Brigade, in the Was of 1812. Pitmo, muslin, \$1.

Of the manner in which this most interesting an important work has been prepared, the opinion of the Hun. John P. Kennedy, in the following letter to a friend of the author, is presented to the public as ample and estifactory testimony:

I have read with great interest Col. Williams's 'History of the Invasion and Capture of Washington, which you were so kind as to send me in advance of its publics ion. It is remarkably well written, and presents such a clear and intelligible narrative of the incidents of the short and unfortunate campaign, as to leave the most vivid inpression on the mind of the reader. It constitutes a said chapter in our annalsybut one fall of valuable instruction, and worthty of the careful study of every American statesman. Apart from its merits as a literary performance, it may claim the hisher commendation of being an important and long-needed contribution to the history of the country, which will become no less memorable for the significance of the event it describes than for the lesson it teaches.

"Independent of its value in this poin, of view, it will be

speni upon them. Yours, &c. IOHN P. KENNEDY."

II DOCHARTY'S GEOGRAPHY.

Elements of Plane and Solid Geometry, together with the Elements of Plane and Solid Geometry, together with the Elements of Plane and Spherical Trigonometry and an Article on Inwree Trigonometrical Functions. By Gerardus Beekman Decharty, LL D., Professor of Mathematics in the New York Free Academy, and anther of a "Practical and Commercial Arithmetic," and the "Institutes of Algebra." A condensed and admirable work, containing in a few pages what is ordinarily sured over octave quires. Much that is

"A condensed and admirable work, containing in a few pages what is ordinarily suread over octave quires. Much that is cumbersome and wholly useless to the student in the old freatise is emitted, much that is valuable and new is added, and the whole is so arranged that while the scholar will find difficult passages considerably eased, the teacher will see that his own isbors are simplified and greatly assisted. A careful examination of this work by teachers will lead to its general adoption in schools.
